Case Studies

Discover how Colo4Dallas takes care of our customers every day - and goes the extra mile when the unforeseen happens.

Laser Image, Inc.

In 2003, Laser Image Founder and President Barbara Morris recognized the liability associated with capturing, hosting, manipulating and archiving her clients' data and applications. Two years after this direct marketing and document management company moved its servers to Colo4Dallas, a toppled telephone pole revealed the wisdom of their decision.

[Read More >>](#)

NOLA Computer Services

New Orleans-based NOLA Computer Services hosts many high-profile government and corporate sites where 24/7 availability is imperative. When Hurricane Katrina knocked out power to the city - and NOLA's servers out of commission - NOLA scrambled to find a more secure colo facility that could get them up and running the same day. Colo4Dallas provided a superior safe harbor in record time.
