Supportive TI technology and resources empower educators

Dear Koree,

Mathematics educator Jane Gillespie was new to both teaching and TI-Nspire™ technology when she accepted an offer from her mathematics coordinator to test TI's new [Algebra Nspired](#) lesson resource center and TI-Nspire learning handhelds. After learning about the technology and using one of the Algebra Nspired lessons in her class, Jane experienced one of her greatest teaching moments.

In their own words: Insights from 2009 T³™ International Conference attendees

Have you registered yet for the [2010 T³ International Conference](#) in Atlanta, GA, March 5-7? Want to know what to expect? Hear firsthand what attendees experienced last year at the T³ International Conference in Seattle and the value they received from participating.

[Check out the 2009 T³ blogs >](#)

What you've been waiting for: The TI-Nspire™ Navigator™ system

The NEW TI-Nspire Navigator system offers a completely wireless network of TI-Nspire and TI-Nspire CAS handhelds. Students can show their work from anywhere in the class and you can instantly assess their understanding.
